

The client contacted INGIC for the development of the website that could enhance their online presence providing complete information to their clients.

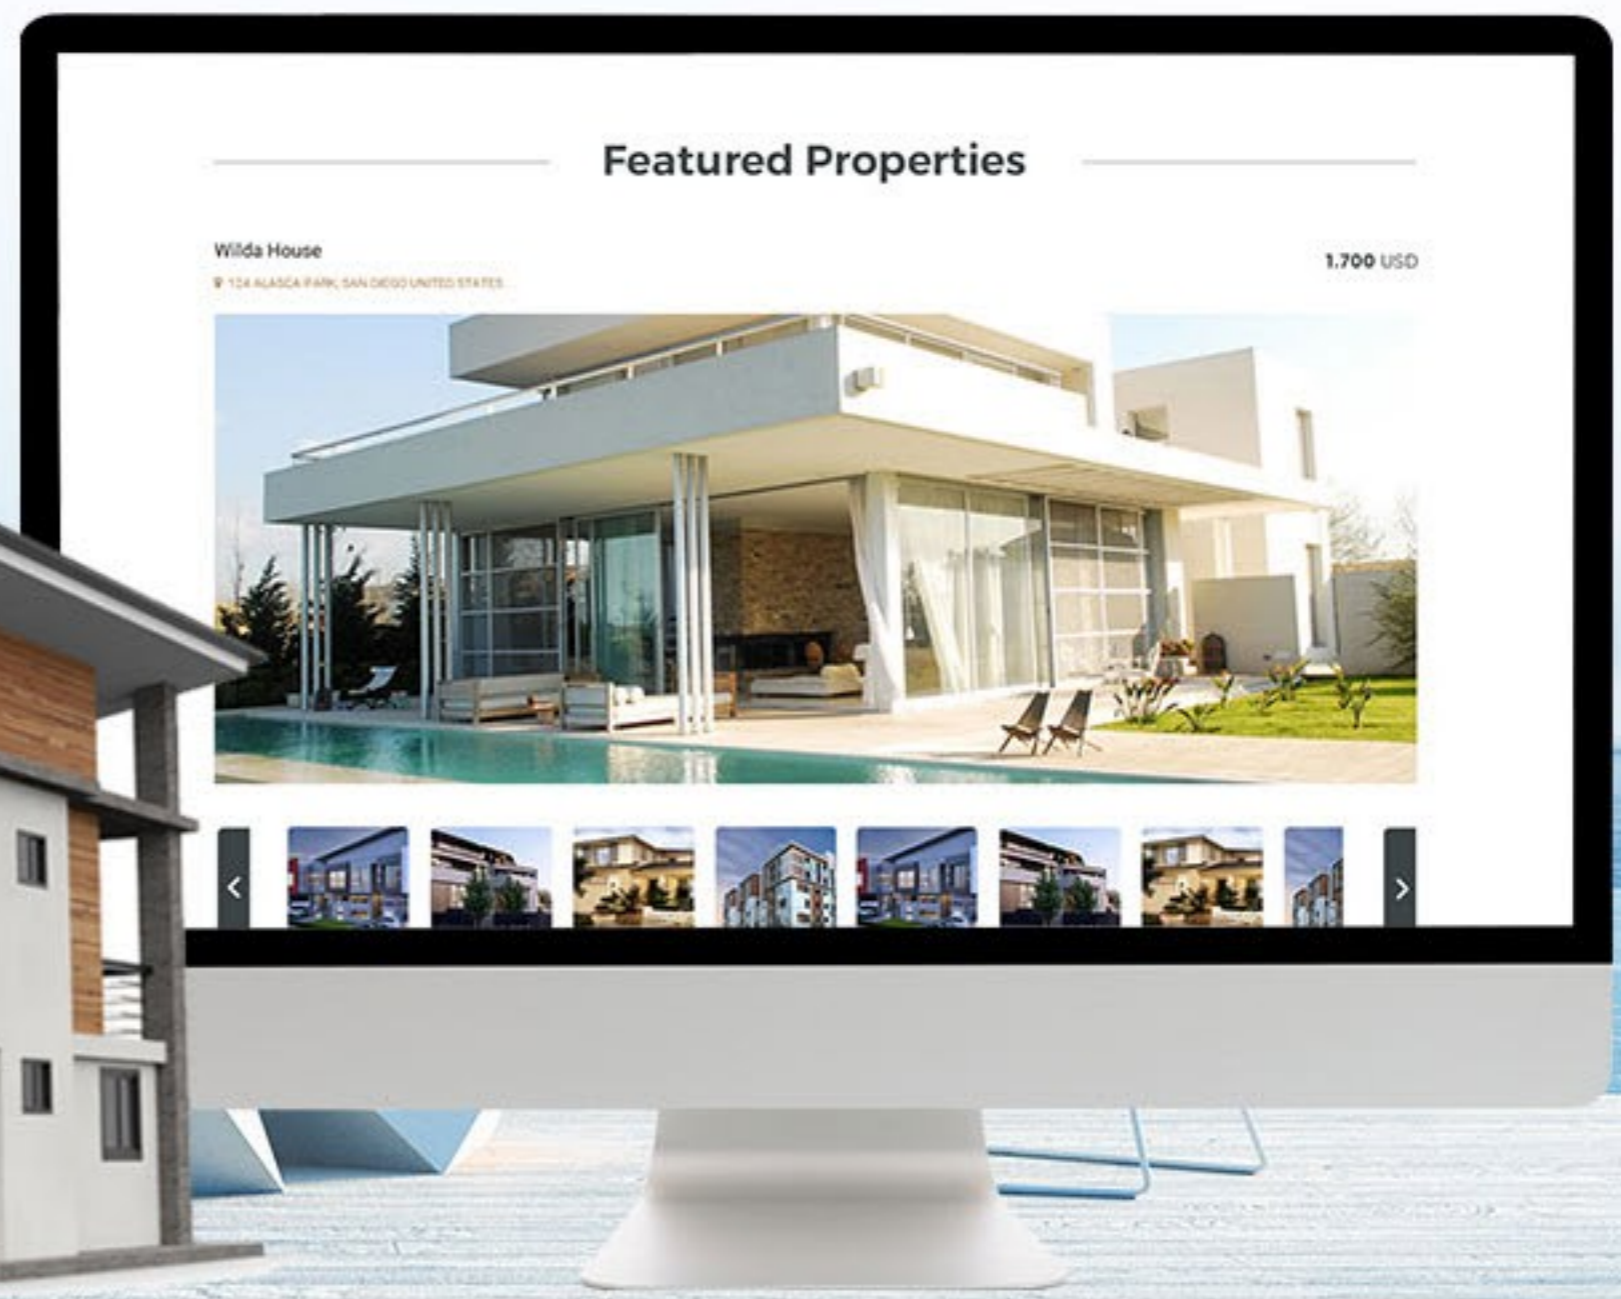

PROJECT OVERVIEW

The website was developed by INGIC keeping in mind the brand reputation and all the features assisted to enhance it.

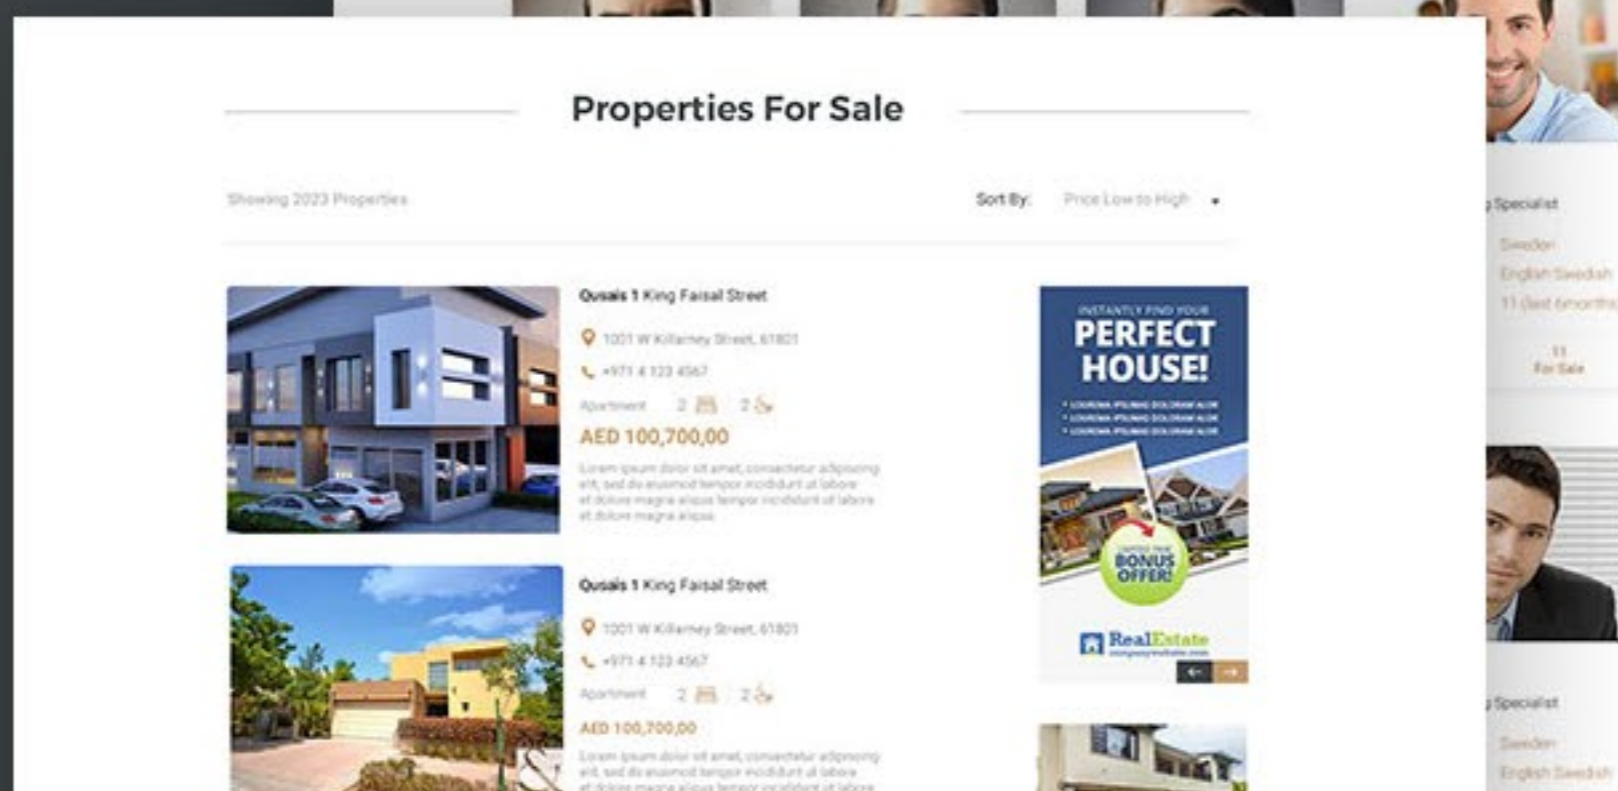

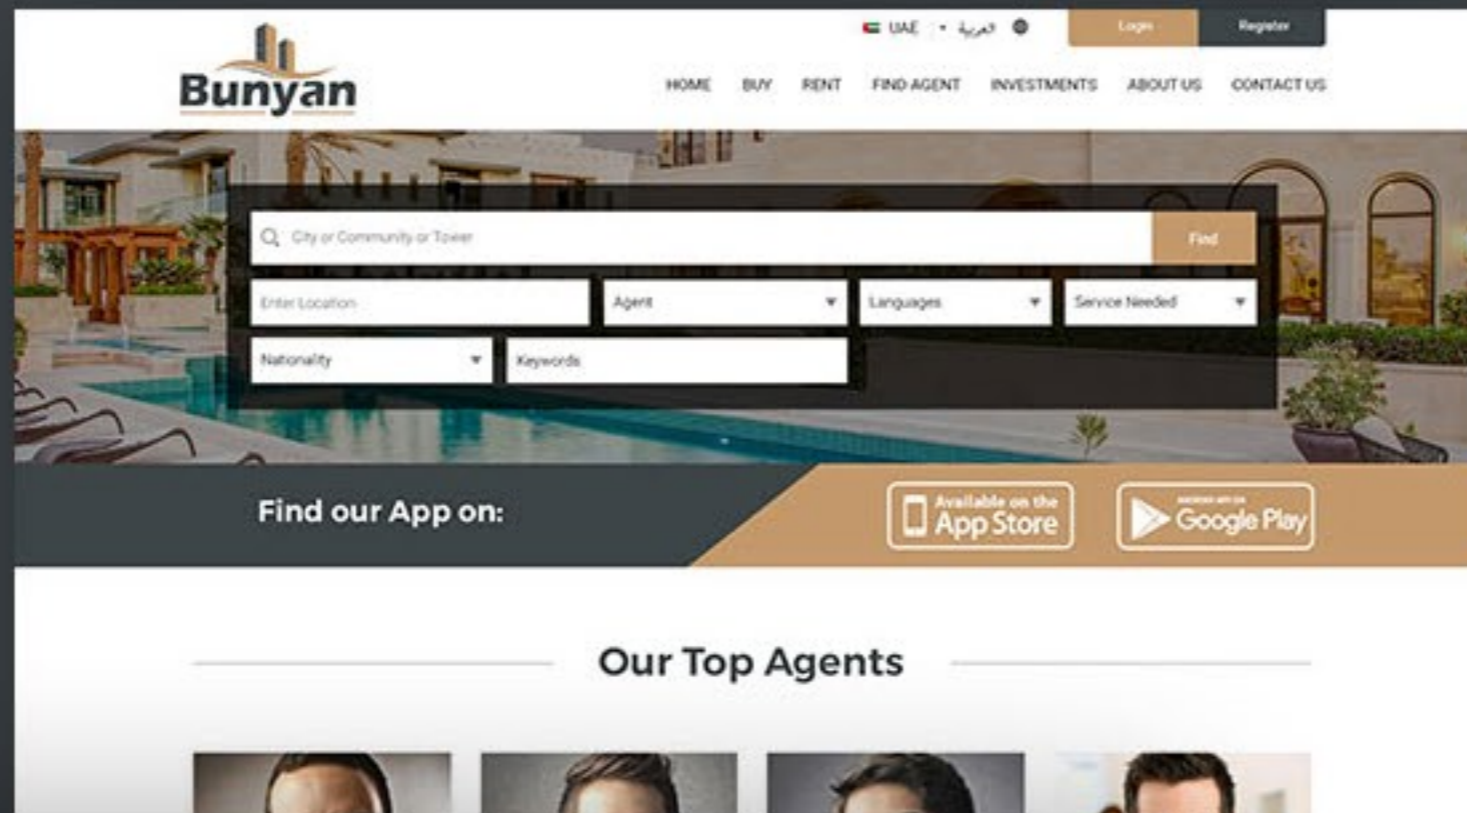

FEATURED SECTION

As the website had to offer the details of the properties by the client, we made sure that each section holds high definition images with comprehensive and relevant details.

SEARCH OPTION

An extensive form was deployed for the ease of customers that could assist them to customize property search according to their city, area and other preferences.

A SEAMLESS EXPERIENCE

The app is meticulously designed and build to ensure a pleasing and effective consumer journey offering mobile compatibility.
