

CITIZEN

CITIZEN wanted a showcase app for their for their customers, Team INGIC displayed their products online with a smooth interface.

PROJECT OVERVIEW

The globally renowned company Citizen watch wanted a showcase app for their online product display.

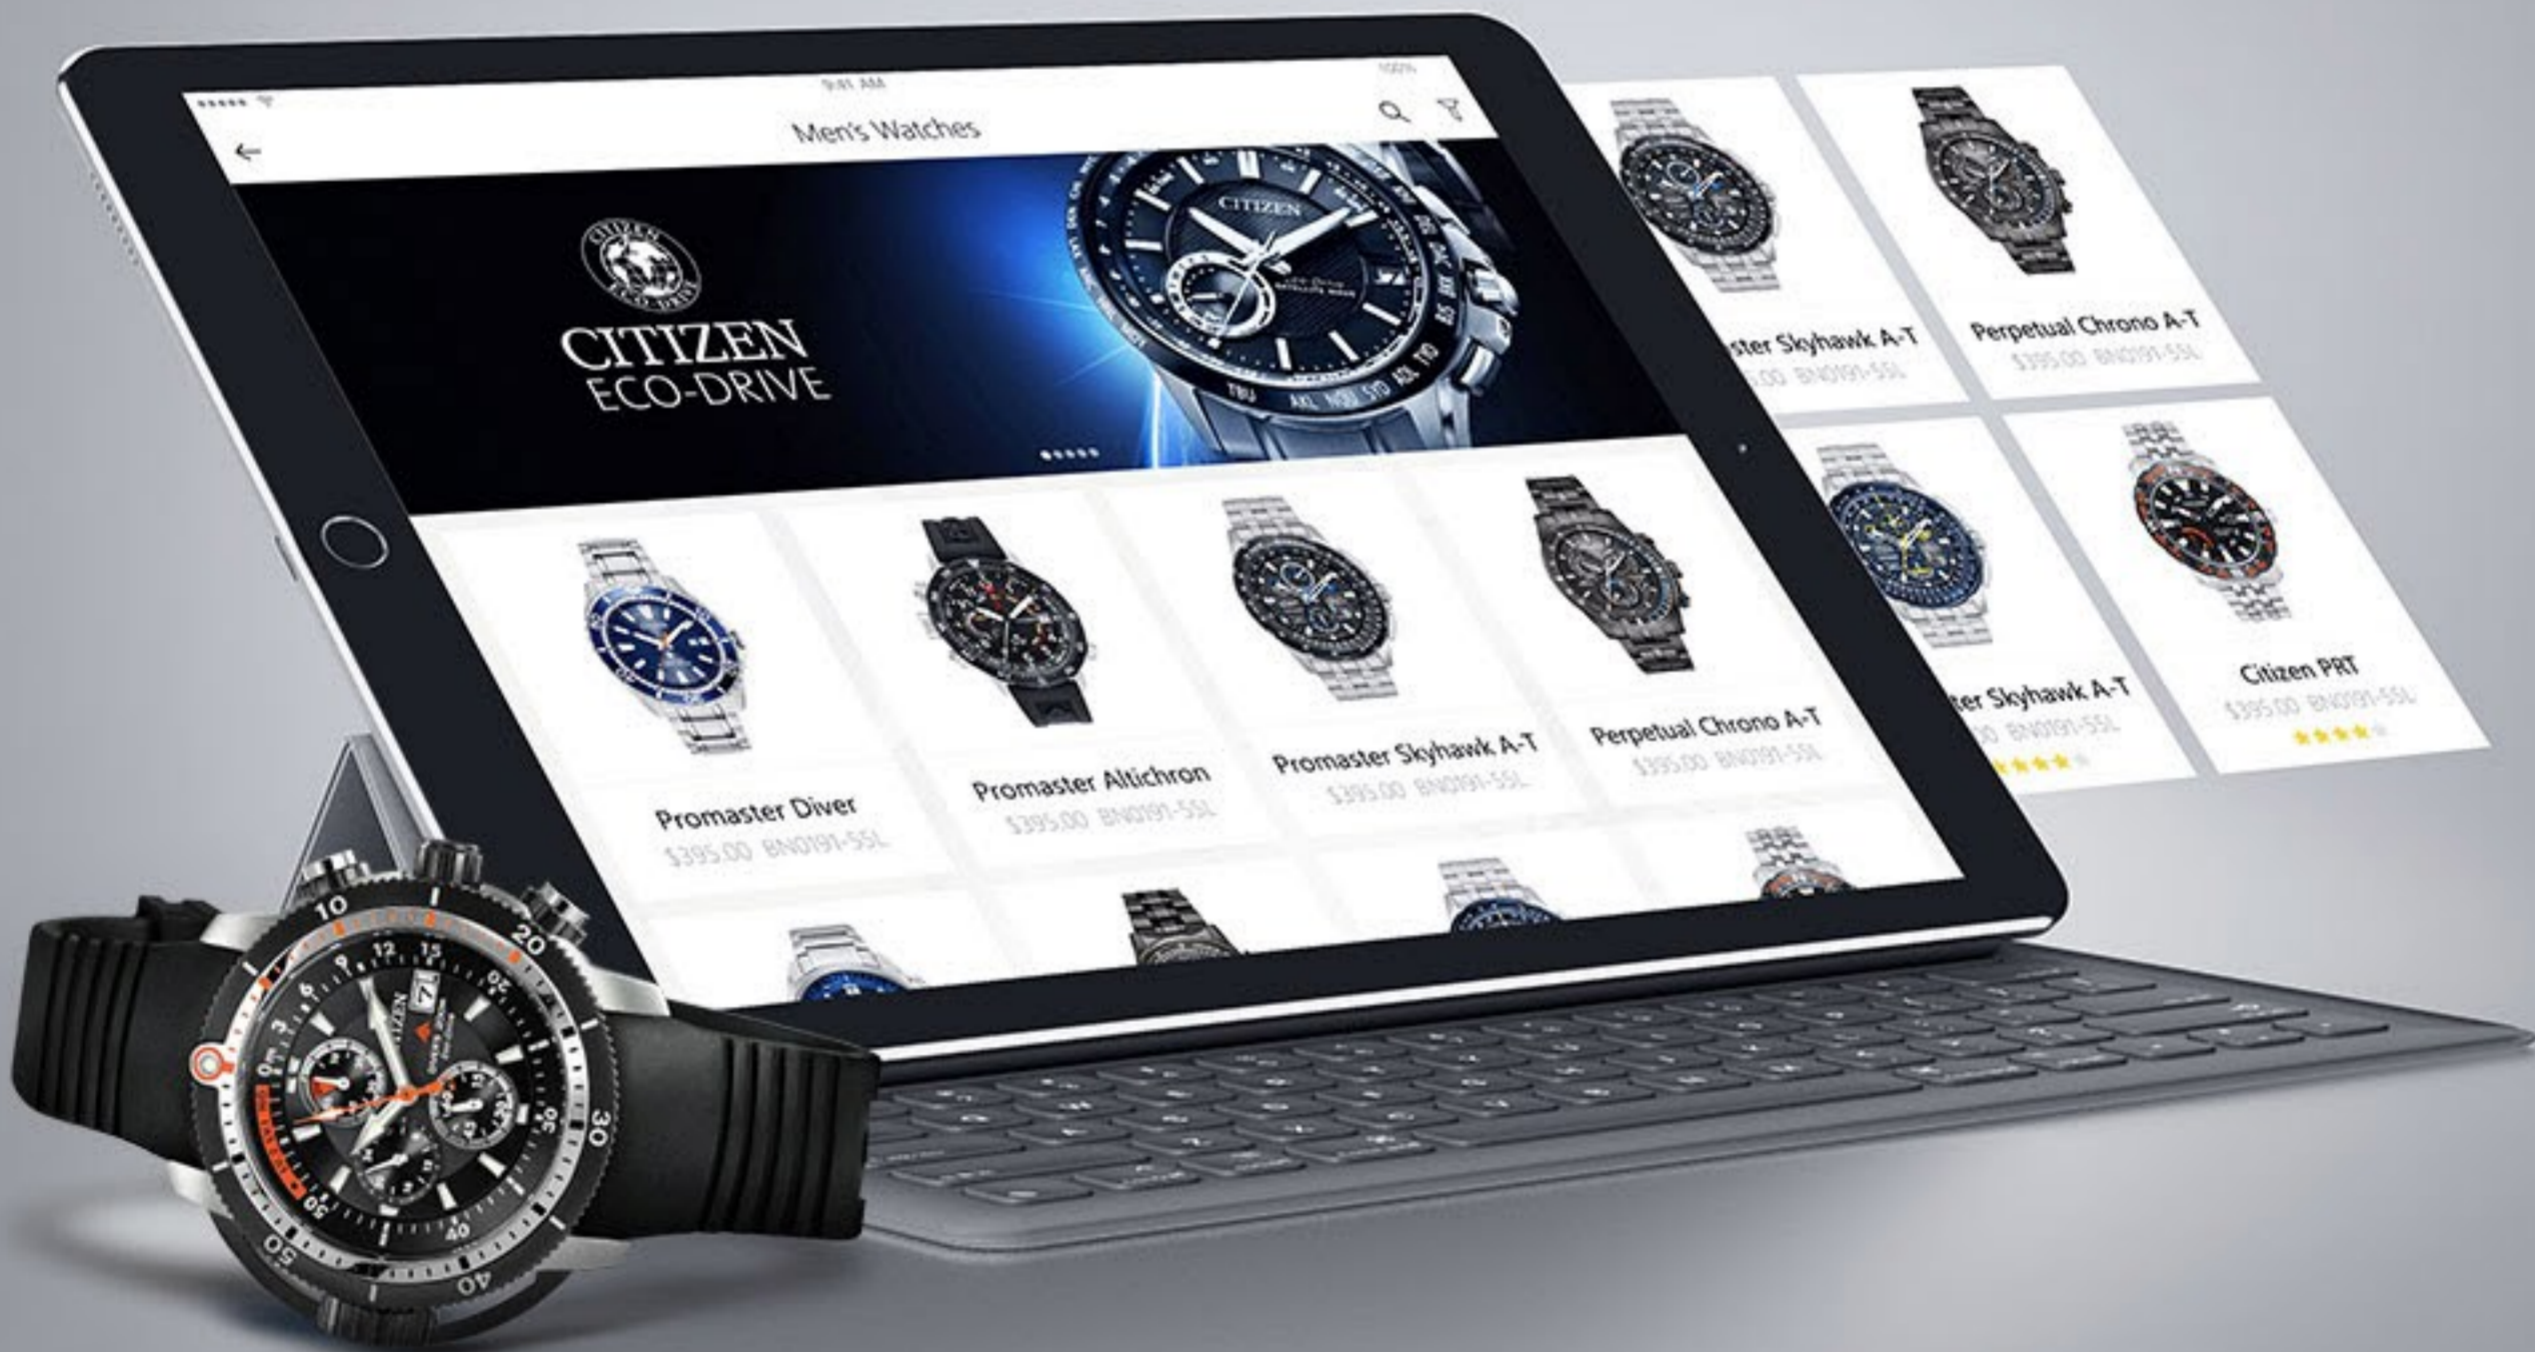

ONLINE SHOWCASE

The showcase app is a comprehensive e-store which offers the largest online display of citizen watches. The consumers can even search for a model they have been looking for with its details and price.

PRODUCT INFORMATION

Complete information about each and every product is listed on the app. It liberates the customers to search for their desired product along with making their decision to choose and purchase the product easily.

INNOVATION AT ITS BEST

The app is digitally interactive and has been designed according to the latest standards of modern dimensions of app development. The core purpose of showcasing the entire range with complete details, was achieved according to client's brief.
