

Education USA, wanted to connect with students and candidates all around the globe, INGC did this job with a native mobile application.

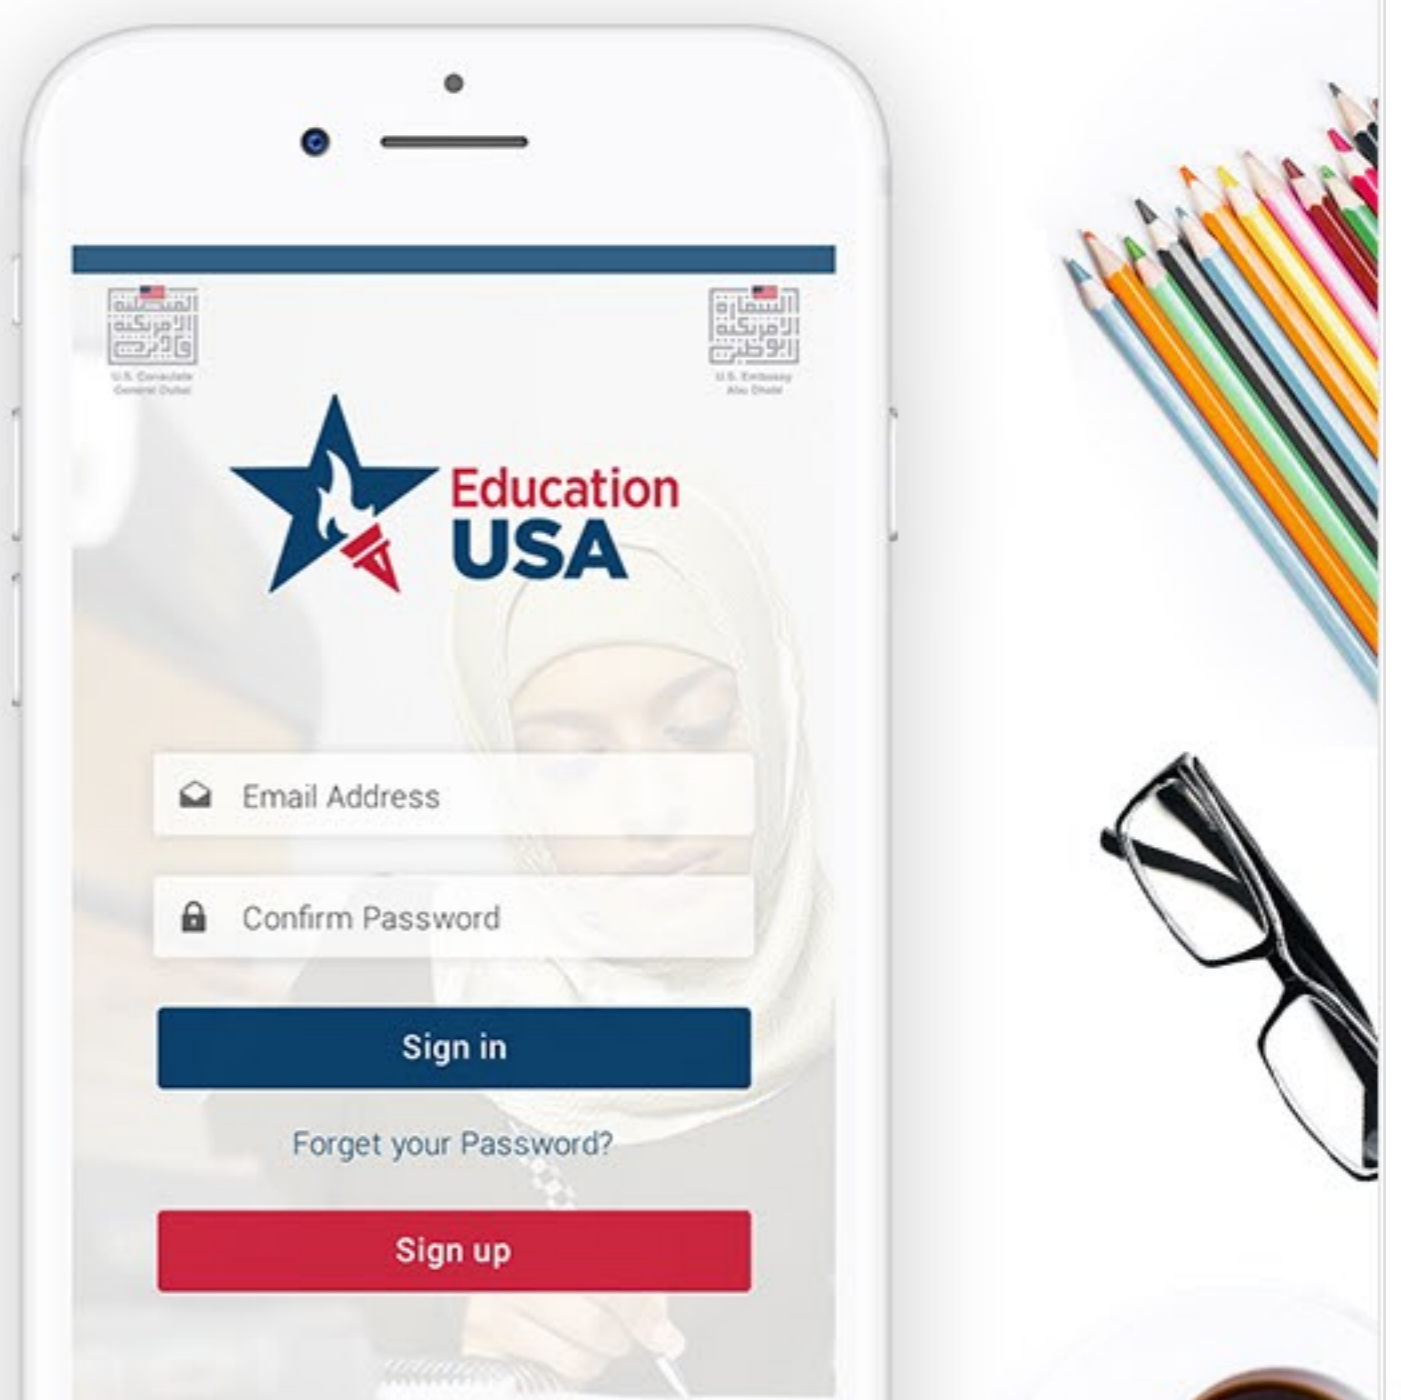

PROJECT OVERVIEW

One of our featured clients Education USA, a department of state network, wanted us to create a mobile application to connect with students and candidates all around the globe.

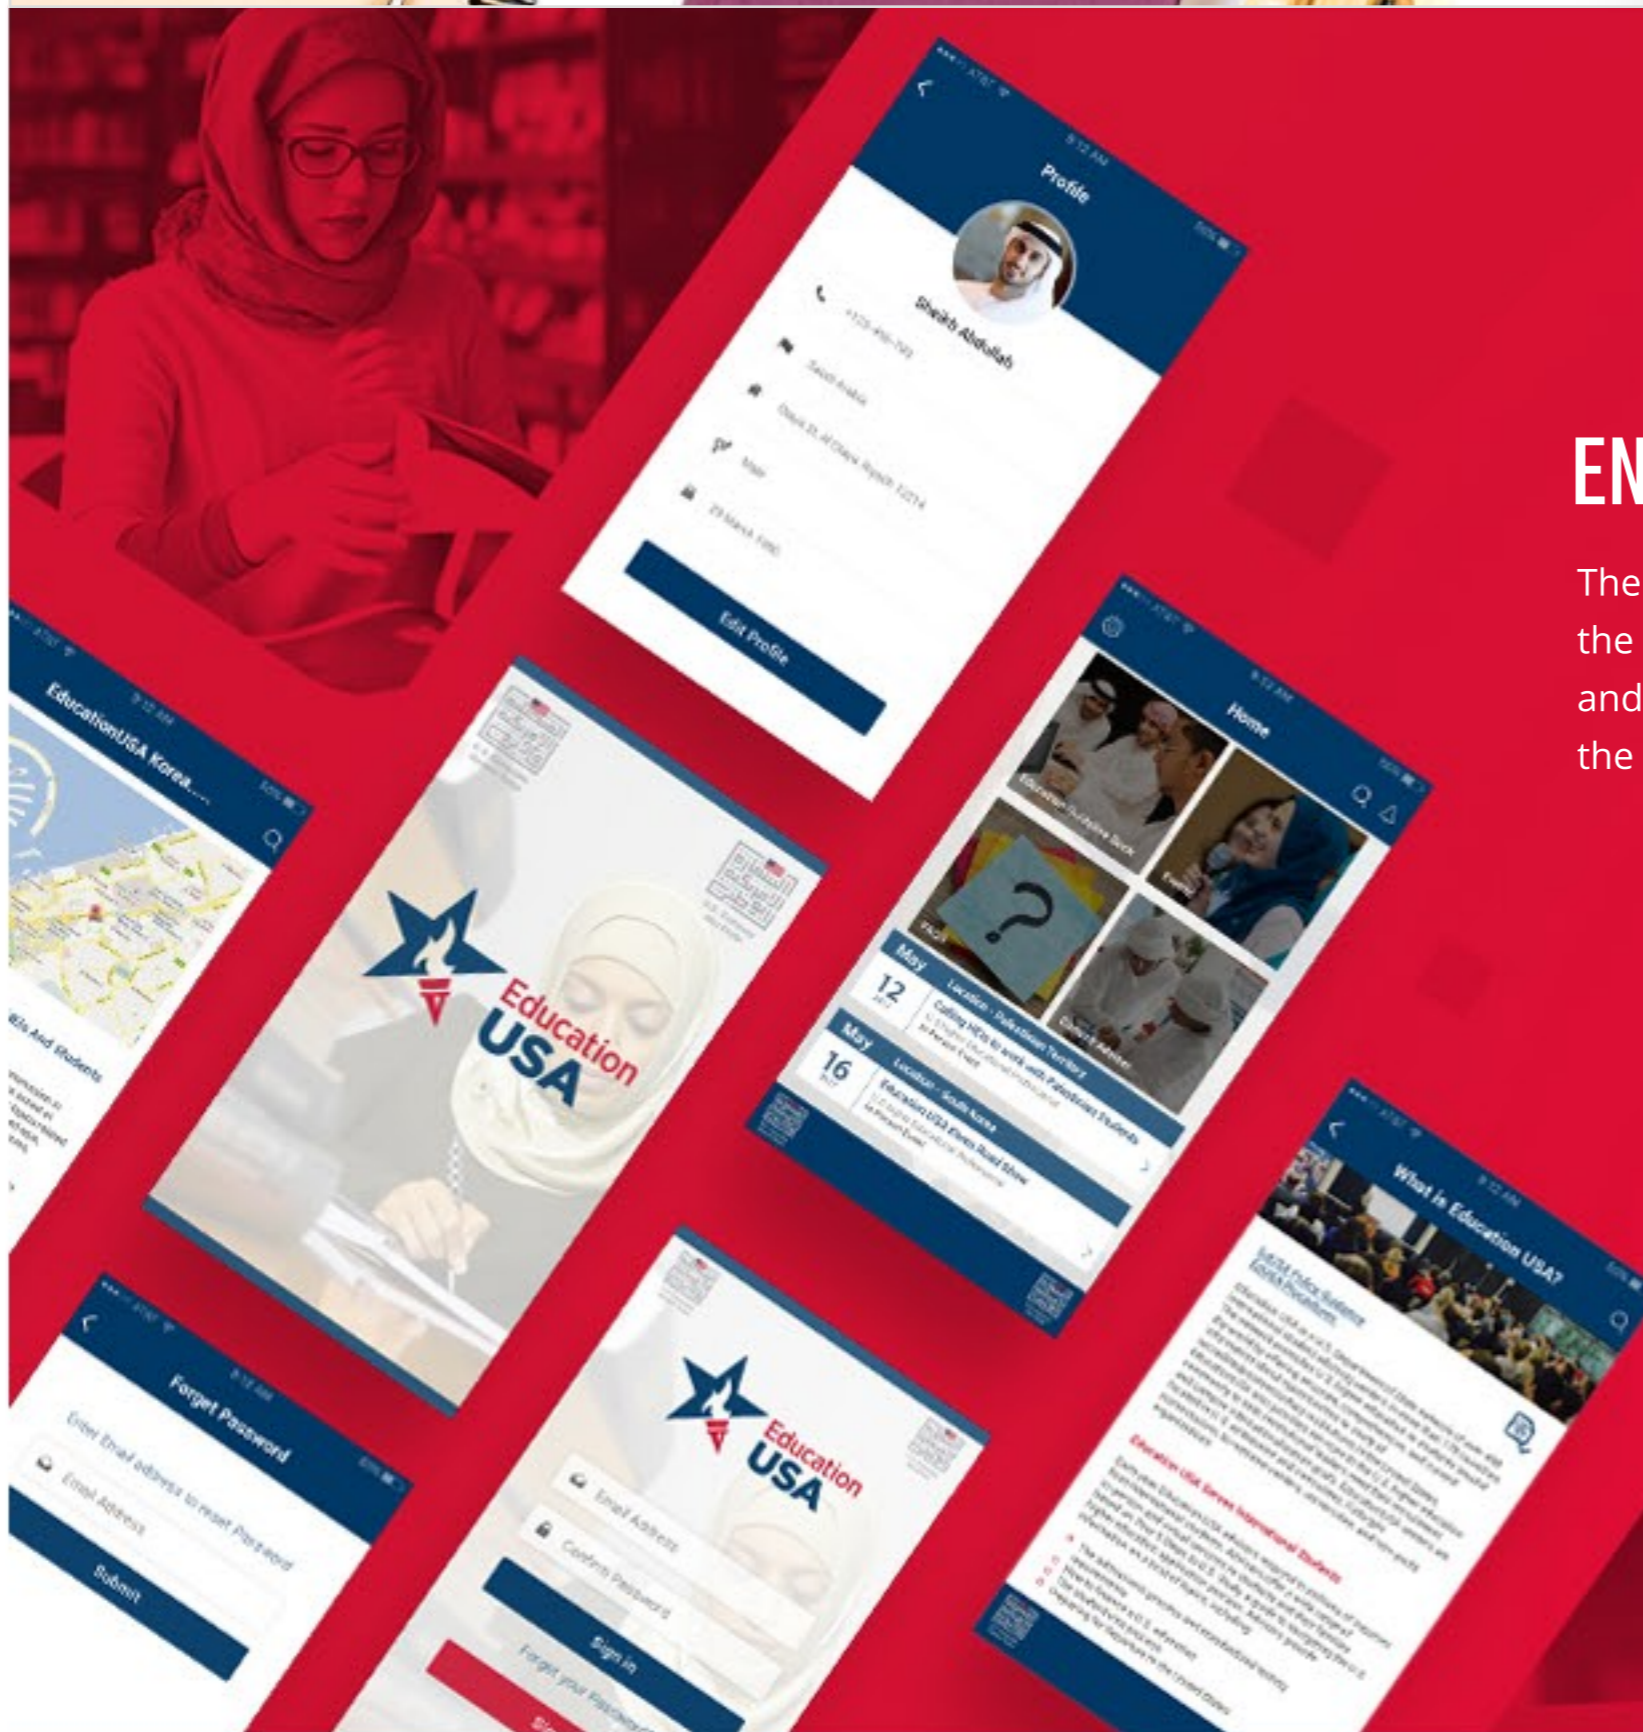

CUSTOM AND PERSONALIZED DESIGN

They wanted us to provide customized design for their mobile application. We developed application that helped them easily communicate with each and every student easily.

ENHANCED CUSTOMER INTERACTION

The quiz offers high levels of customer interactions that enhances the user experience to its best. With extremely interesting questions and smooth interface the Porsche app enables every use to achieve the unsurpassed quality of activity.

CONVENIENT AND SECURE MOBILE APPLICATION

We provided user-friendly and simple navigation that can help user to surf throughout the app easily. And Sign in and Sign up with security assurance.
