

GPCA wanted smooth flow of information throughout the organization, INGC developed dashboard that helped them in increasing the interaction.

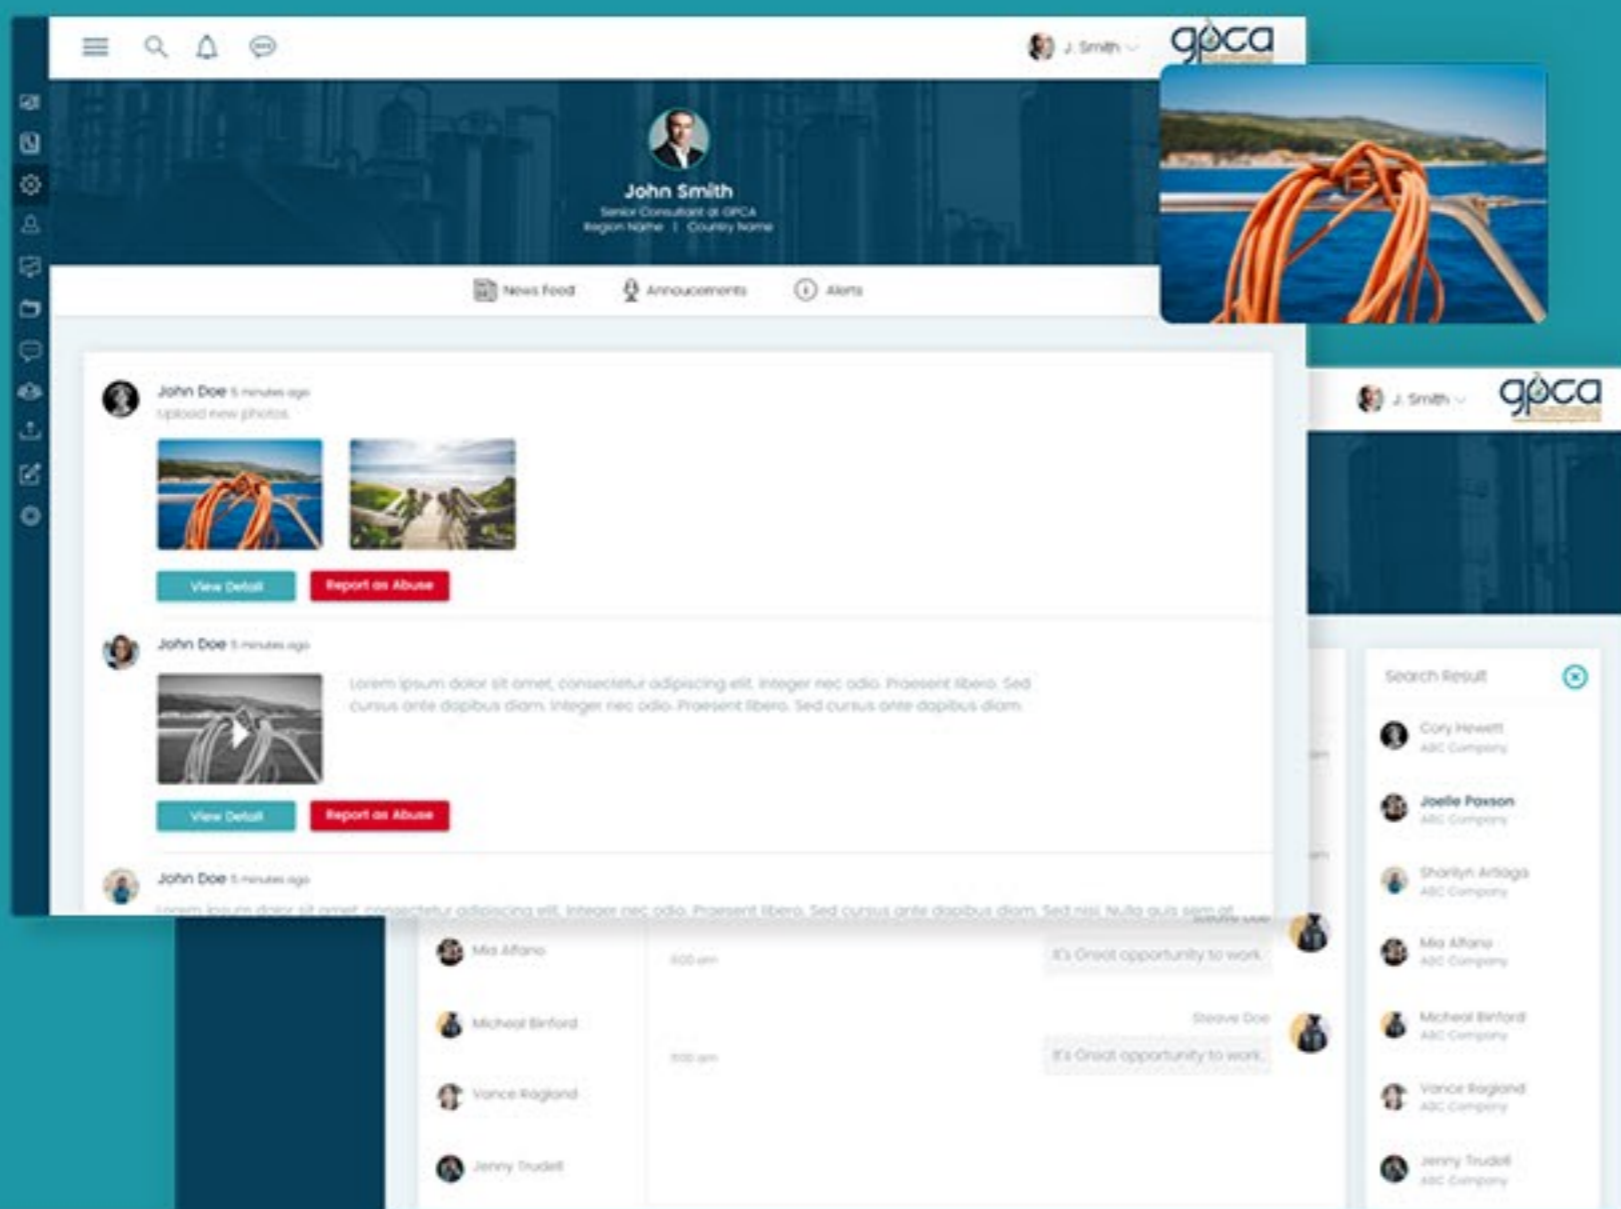

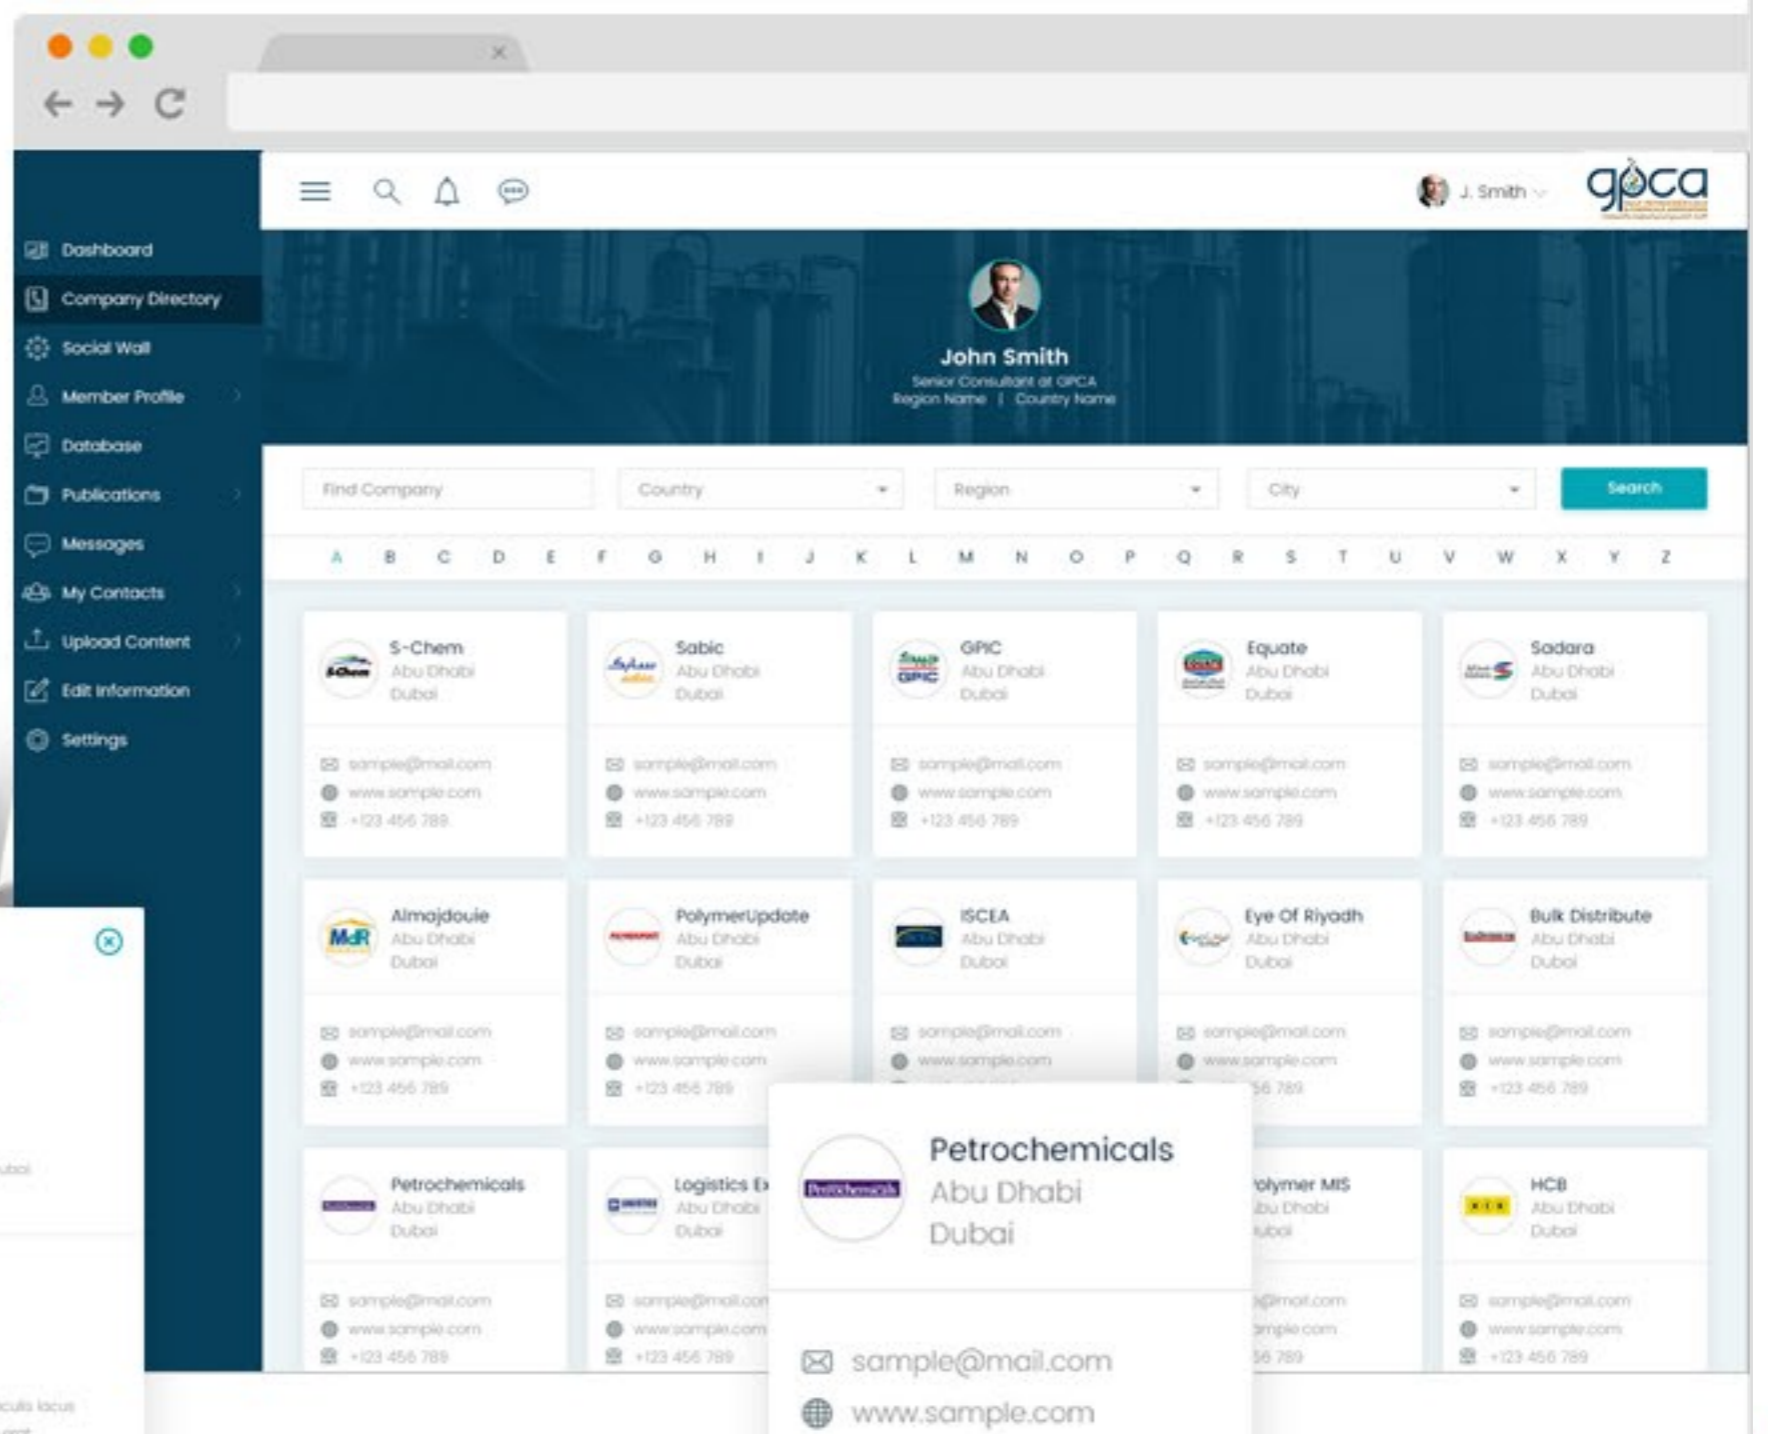

PROJECT OVERVIEW

INGC was hired by GPCA, a company dealing in petrochemicals, to deliver a high quality dashboard management system for integration of business processes while ensuring efficient flow of information. Their core purpose was to ensure improved results, reduced stress and increased productivity through this dashboard.

TOTAL VISIBILITY INTO YOUR BUSINESS

The dashboard is designed with a purpose to represent what's exactly going on in the business. It consists of different functionalities to measure goals against progress in real time.

USER-FRIENDLY NAVIGATION

The dashboard is designed to provide the most user-friendly navigation in order to access critical information quickly and to automatically connect users to the information they need. Moreover, it is programmed to be compatible with any mobile device to reach anyone with the most accurate information.

ALIGNING STRATEGIES AND ORGANIZATIONAL GOALS

We delivered a digital dashboard which has the ability to align key performance indicators with business goals in order to improve decision making.
